Master Restorer Jason Wenig Joins America's Automotive Trust Board of Directors

RPM is pleased to announce the appointment of new America's Automotive Trust (AAT) Board member Jason Wenig. A long-time advocate of the RPM Foundation, Wenig is Owner and President of The Creative Workshop, and Executive Director of the Motorcar Cavalcade in Miami.

RPM Executive Director Nick Ellis said, "There are few people in this industry who can match the knowledge, expertise, and passion for this interest and industry as Jason Wenig. He's the ideal person to join the AAT Board."

Wenig is excited to join the board: "As a 20-plus year veteran of employing and training the craftspeople that keep our industry alive, I have been passionately supporting the RPM Foundation's efforts to support next-generation careers for many years. I know firsthand how important RPM's initiatives are and how desperately they are needed to ensure our hobby remains vibrant and viable in the years to come. So, it is now an honor to have been voted to the Board of RPM's parent organization, America's Automotive Trust. I'm excited to lend my experience to the Trust's mission of advancing car culture."
