Jason, Kim & Staff,

The design and planning/construction of the "Dingo" was a wonderful and challenging experience. I truly enjoyed all facets of the work, loved meeting and working with your team of artisans. You have a great crew at Creative Workshop. I cannot express to you how much I wanted to see the project car completed, but sadly life and circumstances get in the way of a man's dreams.

Many thanks to everyone for the exposure to your process and the education I received in prototype car design and construction. I learned a lot in a compressed period.

Everybody take care and live life fully and completely.

I truly enjoyed the ride!

My Very Best To ALL.

DJ
